KUALA LUMPUR, SEPTEMBER 2021 - The Malaysian Insurance and Takaful Brokers Association (MITBA) celebrated their 45 years of professional conduct and practice of Insurance Brokers in Malaysia by donating 34 laptops to aid more than 10 different charitable organisations worth RM86,500.

In line with SOP, all 34 laptops are to be distributed among House of Love, Yayasan Sunbeams Home, Penayang Nur Iman, Shelter Home For Children, Praise Emmanuel Children's Home, Lighthouse Children Welfare Home Association, Rumah Bakti Dato' Harun, House of Joy, Rumah Aman, Desa Amal Jireh and more.

With the laptops, MITBA and the donors hope that these youths can attend to their studies online while encouraging them to explore opportunities in the digital space and to be more involved as well.

MITBA's chairman Vicky Rajaratnam, said despite the prevailing Covid-19 situation that has also affected the insurance industry in Malaysia, industry stakeholders have stepped up to support these young people who are finding it difficult to participate in online classes due to lack of support on the technology which is an essential right now.

"I would also like to express my gratitude to all the brokers involved and contributed to this cause, especially to the insurance broking houses and other contributors from our industry who have worked closely with MITBA to ensure the success of this fundraising drive. I'm overwhelmed as we have exceeded our RM70,000 marker by 23 per cent and we strongly believe this will provide the necessary tools for these children to grow in this digital era," he said.
